Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Art Unit: 1795

Response to Arguments

1. Applicant's arguments filed September 2, 2008 have been fully considered but they are not persuasive.

a. The remarks filed September 2, 2008 have been considered but are not persuasive since they are not directed to the limitations of the conductors as the current language of the claims require.

b. The amendments to the claims filed September 2, 2008 will not be entered after a final rejection because the additional limitations in independent claims 1 and 12 require further consideration to determine patentability, such as the limitations of the first end to be overlying "the first end of the corresponding first conductor in a direction normal to the surface" which was not previously required by the claims.

/Nam X Nguyen/

Supervisory Patent Examiner, Art Unit 1753
